I know we can't save the whole world but we can make a difference in the lives of women struggling to retain their dignity and sanctity amid social and economic challenges that seem impossible to overcome. But they're not—if you help."

## Help Lott Carey's Women Auxiliary

LCWA is extending the Christian witness around the world and touching lives with the transforming love of Christ. But it needs your help to support spiritual, health, and economic projects around the world. I'm calling on all my family, friends, and neighbors to join this effort to be compassionate in spirit and generous in giving. The goal: \$200,000 for projects in:

### **Addis Ababa, Ethiopia**

The Situation: The sex trade is trapping women and young girls in a dangerous lifestyle, with an HIV rate as high as 75 percent. They are driven to desperation by social pressure and economics.

The Need: HIV/AIDS counseling and testing, and empowerment programs for women forced into commercial sex work.

### **Bangalore, India**

The Situation: Thousands of tribal forest dwellers relocated from tiger preserves live in squalor without land-holding rights.

The Need: Social empowerment and education programs for women, and health services for relocated tribal families.

### **New Delhi, India**

The Situation: Fear and bias continue against facilities serving HIV/AIDS patients.

The Need: Expansion of the HIV/AIDS Care and Support Home to help people regain their health and reenter society.

### **Retreat, Jamaica**

The Situation: Servicing Jamaica's staggering debt accounts for nearly half of government spending. An unemployment rate of nearly 15 percent contributes to a youth crime problem that includes gang violence and drugs.

The Need: Job skills training and women's economic empowerment.

### **Gweru, Zimbabwe**

The Situation: The Baptist Theological Seminary of Zimbabwe values the contribution of women. It is one of the few religious institutions where women are trained as pastors. Due to economic hardships, some promising students cannot afford to continue their education.

The Need: Theological training with emphasis on leadership development for women clergy.
